# GENDER AWARENESS

**Why** is the workforce divided into typical women's and men's workplaces? **Why** are there less women leaders and managers? **Why** is it still less accepted for men to take parental leave? **Why** do women earn less than men? **Why** do so many women of all ages still work part-time? **Is this a fair and democratic society?**

**WHAT CAN YOUR BUSINESS  
DO ABOUT THIS?**

**HOW CAN YOU IMPROVE THE BALANCE  
BETWEEN WORK, PRIVATE AND FAMILY LIFE?**

Through practical work The Centre for Equality can help you to be aware of the gender gap in your corporation. The next step is to do something about it. Both leaders and employees need knowledge and training in gender perspectives. The Centre for Equality can help you to find different approaches on how to integrate the gender perspective in all your tasks such as planning, governance, personnel management, services and organisational development.
